

ELGIN & HALL

FIRES AND FIREPLACES  
2016

The warmest of welcomes to the latest Elgin & Hall fireplace collection. Our designs have been continually evolving over 50 years to harmonise with an ever wider range of home interiors and lifestyles – whilst always adhering to our founding principles of elegance and simplicity.

This timeless quality means your chosen fireplace will always be comfortably in agreement with your tastes in furnishing and décor – even if the balance between traditional and contemporary changes over time. That's important, because a fireplace crafted in marble is an enduring asset.

An Elgin & Hall fireplace could easily be the most rewarding addition you make to your home and its value. Enjoy discovering what appeals to you from the following pages, and finalise your choice with the expert help of your Elgin & Hall appointed retailer. Once an Elgin & Hall creation has taken pride of place in your living room, we promise you – the impact is transformative.

## *the best of* **British Manufacturing**

Elgin & Hall are British through and through. This heritage is more than a matter of pride for us. It results in real advantages for you. Every aspect is under our control - research, design, production, service and delivery – so we can continually improve quality, reliability and value for money.

Since the foundation of our parent company in 1963, we have successfully continued to grow from our base in the North of England. Everything you see and feel about an Elgin & Hall fireplace is created here.

The gas and electric fires are engineered, produced and tested for peak performance and reliability. The surrounds are designed to keep pace with changing trends in lifestyle. They include features which only we can produce thanks to our investment in the latest CNC machinery.

At the same time, we depend on our craft skills to hand finish and polish each marble or timber piece to perfection. It is this balance of innovation and heritage that makes your Elgin & Hall fireplace uniquely special.

*for a fireplace that is anything but ordinary...*

*...welcome to Elgin & Hall*

Marble Fireplaces page 4 - 23

This enticing range of fireplaces gives you a wide choice of style with hints of Tudor, Renaissance, Regency, Victorian and Modernist.

Electric Fireplaces page 24 - 39

Enduring quality and timeless design, your choice from this stunning collection will be as though it's been part of your home for ever. Quick, clean and simple to install with no chimney breast or flue required.

Electric & Gas Inset Fires page 40 - 45

Complete your new fireplace with a stunning choice of fires. Choose the real dancing flames of a gas fire or the practicality of an electric fire – whatever you choose there's plenty of options to suit your style.

# *Marble*

## *a true statement of style...*

### THE MARVEL OF MICRO MARBLE

---

Name the classic material associated with fireplaces. It's marble, naturally. Ours comes from time-honoured sources in Italy, Spain and Portugal. Small pieces of real marble are finely crushed and reconstituted to give the authentic finish we call micro marble without any natural imperfections.

This durable material has a beautifully variegated surface which you can only fully appreciate first hand – looking, feeling, admiring.

The craftsmanship we devote to producing fireplaces in our UK workshops is matched by innovation. Our latest fireplaces in micro marble have clever touches and refinements that our in-house technology pioneered. Another reason why your choice of an Elgin & Hall fireplace is anything but ordinary.

For technical details and finish options - see page 46 - 47

## SMARTSENSE UNDER-MANTEL LIGHTING

Imagine brushing your hand across the surround and suddenly your fireplace is bathed in light.

You've just triggered the sensor that turns on the Smartsense lighting concealed in the top recess. This aesthetically pleasing yet energy efficient feature is an option on many models across the range.

## HEARTH OPTIONS AND MADE TO MEASURE SERVICE

It's the attention to detail that makes Elgin & Hall anything but ordinary. We offer you a great selection of hearth options to make your surround even more special. Choose from Standard Lipped, Five-Sided, Bullnose or Bevelled. If you want to cover an existing carpet cut-out, Elgin & Hall also provides a 'made to measure' service on Standard Lipped and Bullnose Hearths - ask your retailer for details.

WHITE

ITALICA

PEARL STONE

Please note: colour options will vary for each surround.

## THE FULL SPLENDOUR OF A MARBLE FIREPLACE ON A FLAT WALL

When a new fireplace replaces a gas or coal fireplace, the new electric fire unit usually slots into the gap left by the old fire. But what if you just have a plain flat wall?

You can, of course opt for an all-in-one electric fireplace from our Electric Collection from page 24, or choose an Elgin & Hall surround that has a flat to wall fit option.

The back panel which frames the fire is moved forwards by an extra 75mm. This deeper space between back panel and wall allows any electric fire to be moved forwards too, so it doesn't have to sit in a chimney breast. To identify fireplaces with this optional feature look for the "flat to wall fit option" icon.

# Vitalia

The grand presence of this stunning micro marble surround is unrivalled. With its fine detailing and stepped design the Vitalia is an uncompromising and stylish feature for any interior. Shown opposite with the Chollerton widescreen inset gas fire it's equally at home with our Ember electric fire below.

52" Manila micro marble with an Ember Chrome electric fire

This surround is available in

52"	Manila or White	Standard Lipped, Five Sided or Bullnose

22" cutout back panel available for Chollerton gas fire

52" White micro marble with a Chollerton Chrome widescreen gas fire

# Aurelia

There's something sublime about the Tudor Arch that's right for any era or room style. But what gives this new addition the extra magic is the way its edges have a soft inward curve. This intriguing effect is an Elgin & Hall innovation.

ELGIN & HALL

## PERSONAL

In terms of convenience, our electric fireplaces are all the same: they can be installed against any wall in any room. But in terms of looks, they are as beautifully different as the decor and furniture which you seek to match - as individual as you are.

Some styles echo favourite eras of domestic design including Arts and Crafts and Art Deco. Others are tailored to life today – clean in looks, but relaxed in attitude. So when it comes to complementing your lifestyle, you have all the scope you could ask for.

In output, the 2kW performance provides instant heat when you arrive home, supplements central heating or allows you to heat just one room when the weather is just on the cool side. In materials you have the choice of micro marble or the rich tone and texture of wood.

## LATEST LED TECHNOLOGY

The flame-effect-only setting gives you the impression of smouldering coal and flickering flames with a choice of three levels. The latest LED technology produces a play of red, orange and yellow tones with hints of blue that is both realistic and cost-effective. You could run the flame-effect-only setting five hours a day, seven days a week for less than £3 per year.\*

\*assuming 5hrs/7days per week usage. NPower standard electricity tariff for NE32 3BE, 01.03.2015

## ENTRANCING EFFICIENCY

Prepare to banish any preconceptions about electric fires. Our specialists have succeeded in recreating the vibrancy of a wood fire at its glowing peak, where the logs are translucent with heat. Flames flicker and sparks fall into the glimmering bed of ash. The inner secret is LED technology – for extra-long life and the lowest energy consumption. There appears to be a residual glow even with the power off.

This amazing transformation can be fitted in half a day at the most. Because it's electric – and only electric - no chimney or recess is required. A marble fireplace requires the skill of a professional installer.

Then it's just a question of plug in... and let the magic begin.

## FLAT WALL CONVENIENCE

There's no need for a chimney or flue with our stunning range of electric fireplaces, they can be simply installed against any flat wall in your room of choice with the minimum of fuss – total convenience from Elgin & Hall.

## COLOUR CHOICES

Our electric fireplaces will complement warm, simplistic tones and bring an ambience to any room. Choose from Manila micro marble, Natural Oak, Almond Stone, Ivory or Stone and watch as your home is transformed.

MANILA  
MICRO MARBLE

WHITE  
MICRO MARBLE

NATURAL OAK

IVORY

STONE

Please note: colour options will vary for each fireplace.

# Amorina

Here is an instant classic, which means it will comfortably find a place in your living room. This lovely electric fireplace in Almond Stone effect features an LED electric fire with a stylish 3-bar fret.

50" electric fireplace in Almond Stone finish

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
50"	Almond Stone	Standard Lipped

# Matteo

Meet the major home improvement that happens the instant you plug in. Unmistakably simple in design yet simply beautiful in impact, the Matteo will provide a dramatic uplift to rooms with a contemporary or retro theme. The masterstroke is the double profile that underlines the expanse of the widescreen fire.

48" electric fireplace in Manila micro marble

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
48"	Manila or White	Standard Lipped

## Vittoria

Who would have thought something so simple could make a complete difference to life at home! The lustrous Manila micro marble frames a widescreen fire for instant effect and lasting enjoyment.

44" electric fireplace in White micro marble with bevelled slim hearth

This electric fireplace is available in

Size:	Colour Options:	Hearth Options:
44"	Manila or White	Bevelled Slim or Bevelled Deep

46" electric fireplace in Ivory / Anthracite finish complete with mantel top in Country Oak finish

# Bracken

As country in style as its name, Bracken enlivens any wall with a series of agreeable contrasts – the Anthracite finish of the hearth, supporting a choice of painted surrounds, topped by the generous beam in Country Oak finish.

This is our first electric fireplace to feature the likeness of a wood burning stove.

This electric fireplace is available in

Size:	Colour Options:	Hearth Options:
46"	Ivory or Stone	Bullnose

# Arletta

Whether your style is traditional or contemporary, the choice of fireplace has to be electric - in the foursquare shape of the new Arletta. The picture frame slopes inwards to showcase the new expansive fire with its feeling of greater depth.

48" electric fireplace  
in Stone finish with Country Oak top

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
48"	Ivory or Stone	Bevelled Slim

48" electric fireplace in Ivory finish

# Heywood

The distinctively modern Heywood – the chunky landscape configuration provides the platform for a lively widescreen performance from the fire. Ivory finish to give harmony with the wall colour and a bold beam directly beneath the fire.

46" electric fireplace in Ivory finish

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
46"	Ivory or Stone	Bevelled Slim

# Cotsmore

Here is Elgin & Hall's design flair refined to its ultimate simplicity. Furnish and decorate your room how you will; the Cotsmore will work perfectly in agreement. The disciplined proportions serve to dramatisé the spontaneous effect radiated by the log fire.

Shown with Anthracite trim

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
46"	Manila	Standard Lipped

46" electric fireplace in Manila micro marble with Chrome 3-bar fret and trim

# Lorento

This top-end electric fireplace is a best seller - clever, unassuming and adaptable. You could hardly imagine any room where it wouldn't look comfortably at home.

The details are delightful – stepped mantel top and a surround bevelled on its inner edges to emphasise the big bold fire.

47" electric fireplace in Manila micro marble with bevelled slim hearth

This electric fireplace is available in

Size:	Colour Options:	Hearth Options:
47"	Manila or White	Bevelled Slim or Bevelled Deep

## *Susannah Electric*

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
50"	Manila or White	Bullnose Slim or Bullnose Deep

50" electric fireplace in Manila micro marble with bullnose deep hearth

This captivating creation owes its individuality to the way the bevelled framework of the fire is stepped forwards from the surround to add extra appeal. Generous in proportions, heat and light, Susannah will improve your quality of life.

# Berkley

Elgin & Hall brings you the timber option with this handsome design. You'll be tempted to embrace it thanks to the rich texture of the Natural Oak and the exquisite detail carved into the recessed framework around the fire. Longing for that rural retreat feel? It's all yours.

47" electric fireplace in Natural Oak

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
47"	Natural Oak	Bullnose

48" electric fireplace in Manila micro marble with bevelled slim hearth

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
44" & 48"	Manila	Bevelled Slim or Bevelled Deep

# Farnham

The angular architecture is given an extra dimension by a window frame shape stepping forward from the surround with the fire as a flickering centrepiece. Farnham comes in two options – a Manila micro marble version with a choice of bevelled slim or bevelled deep hearth and a painted Almond Stone version which gives the effect of real marble.

48" electric fireplace in Almond Stone finish

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
44" & 48"	Almond Stone	Standard Lipped

# Newham

This distinctive creation evokes the values of the Arts and Crafts Movement - simplicity and a sense of workmanship reflected in touches such as the fine fluting on the upright and broad arch. Give it pride of place in your home and see how Elgin & Hall have married century-old elegance with today's outlook.

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
51"	Manila	Standard Lipped

51" electric fireplace in Manila micro marble

# Roesia Electric

Thanks to the popularity of the Roesia design we've made an all-in-one version for ultimate convenience. The foursquare geometry is gently offset by the curved edging under the mantel and around the widescreen fire itself - reasons why it will immediately make itself at home.

50" electric fireplace in White micro marble with bullnose slim hearth

This electric fireplace is available in		
Size:	Colour Options:	Hearth Options:
50"	Manila or White	Bullnose Slim or Bullnose Deep

# *Inset Electric Fires*

*abiding fascination like a real fire*

Whichever Elgin & Hall surround you choose, the centre of attraction is the fire itself, inset into the back panel. Whether you are replacing a gas or coal fire or installing a natural focus to a room with no existing fireplace, going electric allows you to connect with clean, instant, efficient and thermostatically controlled heating.

## EFFICIENCY

Enjoy the convenience of 100% efficient, instantly controllable heat and clean maintenance-free living. By itself this LED only effect consumes just 6 watts of energy. Brilliant!

## REMOTE CONTROL OPERATED

An Elgin & Hall inset fire should be effortless to operate. Which is why they come complete with a remote control to put different levels of heat, light and flame at your fingertips.

## BENEFITS

With an electric fire you don't need to generate heat to enjoy its comforting glow. The LED "flame effect only" control option, lets you experience it any time of the day or year.

Black / Chrome finish

# Ember

This Elgin & Hall innovation takes the illusion of a real coal fire to the next and highest ever level of realism. The sealed-in fire sits behind a curved glass front allowing extra depth to the shimmering embers and dancing array of flame in which the eye can wander.

The trim is in lustrous Chrome or Black Chrome and the fret - magnetically attached to the base of the fire – has that full Chrome sheen. You can fit the Ember into many different fire surrounds, including those with the “deep rebate” option that allows installation against a flat wall.

Chrome finish

## Additional fires

For an even greater choice of electric inset fires, choose from an extensive collection of designs & styles from Be Modern.

Equipped with the latest LED technology, each fire provides instant heat with thermostat control and is compatible with our Elgin & Hall marble surrounds.

# ***Inset gas fires***

## *what fire is right for my home?*

Elgin & Hall offer a choice between three types of fire. Each has its advantages in terms of how realistic they look when burning, how much heat they output and how efficiently they use fuel.

Once you've selected your new stunning fireplace, you may choose to give it a warm glowing heart with an Elgin & Hall gas fire.

Settle in front of the hearth and you'll soon be fascinated by the flame picture that dances from the glowing, flickering bed of ceramic coals. The warmth they radiate is equally welcoming and you have an extensive choice of styles and colours to choose from.

All our gas fires are controllable and convenient to operate with a discreet Smartslide control mounted on the top side or a manual control and igniter located behind the fret\* - flame height and heat output is at your control.

If you have any questions about our gas fires your Elgin & Hall retailer will be happy to advise.

\* Manual control not available on glass fronted fires.

All gas fires require a chimney or flue to conduct expended gases to the exterior. To identify which type your house has and which model of fire will fit (slimline, mid-depth or deepline), check the simple descriptions below. Still unsure? Your Elgin & Hall retailer will be happy to advise.

### **BRICK CHIMNEY (CLASS 1)**

Easily recognisable from the stack above the roofline (usually with a pot or gas terminal), with this chimney you can install all our gas fires including deepline models.

### **PRE-FABRICATED FLUE (CLASS 2)**

Identifiable by a metal flue and terminal on the roof, this flue system is suitable for all our gas fires.

### **PRE-CAST FLUE**

Recognisable by a ridge vent on the roofline, and built from concrete or clay blocks usually within the wall cavity, they are perfect for our Catalina or Radion\* gas fires.

\* Radion fire suitable when installed with a 75mm rebated surround

# Choose the perfect fire

The first thing to decide is whether you prefer an open fire with living flames and welcoming glow or the lower costs delivered by the greater efficiency of glass fronted technology. Then consider the fit – all models for brick chimneys and pre-fabricated flues and the slimline Catalina for pre-cast flues. Having identified which type is right for your home, choose your preferred design and finish. All models are available with smartslide control. Manual control options available on the Catalina, Radion and Cobalt gas fires.

## OPEN FRONTED GAS FIRES

### CATALINA

SLIMLINE RADIANT  
GAS FIRE

The heated glowing coal bed pulls in air to radiate warmth back into the room. Because they are open fronted, these fires give a clear impression of a traditional open fire. The output is around 3.5kW so the room is nice and warm.

### RADION

DEEPLINE RADIANT  
GAS FIRE

### COBALT

CONVECTOR  
DEEPLINE GAS FIRE

An open fronted fire that sends out a hot airstream through the canopy to circulate warmth throughout the room.

## GLASS FRONTED HIGH EFFICIENCY GAS FIRES

### INDIGO

HIGH EFFICIENCY  
MID-DEPTH GAS FIRE

A panel of ceramic glass across the front of the fire prevents air being drawn in then up the flue, so a very high proportion of the fire's radiant and convected heat is concentrated into the room - consuming less fuel to achieve an output better than an open fronted fire.

### UTOPIA

HIGH EFFICIENCY  
DEEPLINE GAS FIRE

### CHOLLERTON

HIGH EFFICIENCY  
WIDESCREEN GAS FIRE

\*when installed with an Xtra Canopy

# *Exclusive or Devotion*

*...Select your trim style and finish*

## EXCLUSIVE TRIM

The framework of the Exclusive trim has a flat facing and long bevel, sloping down to the fire bed. The trim is broad and slightly accented in profile to complement the four boldly curving bands of the fret. In Brushed Steel, Brass, Chrome or Black, the harmony of the trim and fret creates a non-fussy but sympathetic note to a stylish interior. A classic in the making.

BRASS

CHROME

BLACK

# Gas fire accessories

## XTRA CANOPY FOR HIGHER EFFICIENCY

The canopy kit "tunes" the appliance to your flue to raise the efficiency by up to 8% on an open fronted fire

Available on Catalina & Radion models only

## EASY TO INSTALL SPACER KIT

The spacer kit fits to the rear of the fire to reduce the depth by 25mm. It is ideal for use with pre-cast flues.

## HANDLE OPTIONS

An easy grip attachment allows people with restricted movement to control the ignition & heat. Matching colour handles are available in Brass & Chrome  
Black handle supplied as standard  
Available for all Smartslide fires

**BLACK / CHROME**

## DEVOTION TRIM

The distinguishing feature of this range of designs is the black epoxy coated framework bordering either side of the metal trim. This serves to provide a dramatic contrast which accentuates the Chrome, Brass, Nickel or Brushed Steel finish.

The fret itself curves slightly inwards to add extra interest. At the same time the thickness of the black framework makes it stand out subtly from the surround.

Model	Width	Height	Depth	Finish
Ember	510mm (16")	612mm	175mm	Black Chrome
Ember	510mm (16")	612mm	175mm	Chrome

## Fireplace care

Due to their natural properties, Marble, and Timber require special care and attention. These materials can stain easily and are sensitive to acids such as citrus juice, vinegar and household cleaning chemicals.

**Timber** - Wipe clean using a soft dry lint free cloth.

**Marble** - Follow a periodic cleaning routine with a mild, neutral cleaner and always rinse using clean warm water.

Avoid using chemical cleaners as these may damage or dull the surface.  
Avoid using wax or spray polishes.

Avoid placing hot objects, drinks etc. directly onto the fireplace.

## Finishes

### MARBLE FINISHES

### TIMBER & PAINTED FINISHES

# *Feeling is believing*

Now that you've browsed through the latest Elgin & Hall collection, turn back and take a close look to see which favourites begin to stand out. Some lean towards the contemporary interior, others have a traditional appeal, most are beautifully adaptable anyway.

Then comes the exciting part. Visit your approved retailer for Elgin & Hall. Don't just admire the sight of these British designed and manufactured fireplaces; touch them, stroke the marble, follow the timber grain with your finger tips.

If you like, bring paint charts, fabric samples or photos of your room to match with the surrounds. If you need advice, you can trust the experience of our independent retailers.

---

Be Modern Group hold design copyright and registration of design for its product ranges. Be Modern Group are continually striving to improve and develop their range of products. It is important, therefore, to check details before ordering as sizes and specifications may change without prior notice. Whilst every effort is made to ensure accuracy and colour, it is not always possible to obtain perfect reproduction because of the materials and printing processes used and you may find that shades, natural grain markings and marble colouring are not consistent. © Be Modern Group Jan 2016
